abe.® screed dura.® top

MURASIE FUNCTION VENUE, FLOOR REFURBISHMENT

PROJECT LOCATION

Korsika Farm, Struisbaai, Western Cape

SIZE OF PROJECT

350 m²

NATURE OF PROJECT FLOORING: EXPOSED CONCRETE

abe.® screed dura.® top were used for the refurbishment of the flooring in the main function hall. After mechanical vacuum grinding, the exposed concrete floor received a double coating of **abe.® screed SLC acrylic primer**, followed by an 8mm application of **abe.® screed dura.® top**. Finally, the floor was sealed with **CHRYSO Finisol Brut**. **abe.® screed SLC acrylic primer** helped to improve **abe.® screed dura.® top**'s adhesion to the concrete substrate, reduced surface absorbency, and sealed the substrate.

OTHER PRODUCTS USED

abe.® screed SLC acrylic primer
CHRYSO Finisol Brut
