abe.®cron LA

MAKRO CORNUBIA, CONCRETE FLOORING

PROJECT LOCATION

Mount Edgecombe, KZN

SIZE OF PROJECT

17 000 m²

NATURE OF PROJECT CONCRETE FLOORING, DRY SHAKE

abe.®cron LA CH Light Grey was specifically formulated for this job since a more user friendly product was required. **abe.®cron LA** is a non-metallic modified level assisting natural aggregate dry shake surface hardener, a ready to use product for hardening concrete floors. Applied over freshly levelled and floated concrete, this dry shake surface hardener provides a low cost solution for hardening new industrial, commercial or residential concrete floors. Ideal for warehousing and storage areas, automotive maintenance areas and other maintenance facilities.
