# abe Unigum 4 mm single reinforced membrane 3 mm

## MOSI OA TUNYA RESORT HOTEL

### WATERPROOFING ROOF AREAS

#### PROJECT LOCATION

Radisson Blu Mosi-oa-Tunya Resort at Livingstone, Zambia

#### SIZE OF PROJECT

Hotel & Conference Facility roof: 5200 m2 double layer

#### NATURE OF PROJECT

Double layer **abe® unigum** 4 mm and viscous single reinforced 3 mm torch-on waterproofing membrane; were used for Mosi Oa Tunya Resort Hotel. A 4 mm layer of **abe® unigum** dual reinforced membrane was torched on to add extra waterproofing. The incorporation of two reinforcement materials – the membrane strength from the polyester content and the stability from the fibreglass mat – maximises the sealing qualities of **abe® unigum**.

#### OTHER PRODUCTS USED

bitu.prime

#### CONTRACTOR DETAILS

Stefanutti Stocks Zambia Ltd.

#### a.b.e. DISTRIBUTOR

Martsolutions Zambia

#### SPECIALIST APPLICATOR

Tredstone Construction Zambia

#### a.b.e. EMPLOYEE

Trevor Enerson and John Daniel

#### PROJECT START & END DATES

January 2021 - July 2022
