

SAINT-GOBAIN

# abecote® 337 tough epoxy paint (Clear)

## Classic Car Café PRESERVING OF ORIGINAL FLOOR

### PROJECT LOCATION

Old Tannery Building, Wellington, Western Cape

### SIZE OF PROJECT

400 m<sup>2</sup>

### NATURE OF PROJECT

**abecote® 337 clear** is a versatile and effective coating for preserving and enhancing the appearance of various surfaces while providing protection against oil and other potentially damaging substances. It can be particularly useful when a customer wants to maintain the original antique look of a concrete floor.

**abecote® 337 clear** serves as a protective, decorative, and oil-resistant coating. This product is suitable for use on various surfaces, including cementitious (containing cement), masonry (bricks or stone), and asphaltic (asphalt-based) surfaces. It's particularly useful as a floor coatings, as well as a primer for other systems like **abeflo**.

**abecote® 337 clear** can be applied to damp surfaces. This flexibility in application makes it convenient for use in various conditions. Additionally, it can be over-coated at any time for maintenance purposes.
