

PRODUCT SELECTOR

CONCRETE REPAIR & PROTECTION

CRACK INJECTION & REPAIR			
Widths > 0.1 mm	High viscosity crack stabiliser, 90 minute pot life	Epoxy	epidermix® 365
Widths < 0.1 mm	Low viscosity crack stabiliser, 5 hour pot life		epidermix® 389
Fast-setting crack repair, pouring or injection.	Low viscosity penetrating epoxy, day 1 @ 17 MPa		epidermix® 395
Fill voids and prevent water seepage and ingress in structures	Reacts to moisture to produce a foam, for mining and civil applications	Polyurethane	abe® PU injection filler foam
FAIRING & REPROFILING			
Smoothing surface imperfections and blowholes	Thin coat, high strength, feather edge	Cementitious	durarep FC
PRIMERS / ADHESIVES			
Concrete substrates, wet-to-dry adhesive	Shorter open time	Acrylic	durabond GP
	Medium open time	Epoxy	epidermix® 344
	Long open time		epidermix® 345
Adhesive, filler and grouting medium. Used for stitching applications.	General purpose adhesive for most materials		epidermix® 372
Steel reinforcing protection	Zinc rich passivating coating	Cementitious	durarep ZR primer
Bonding and steel reinforcement protection	Bonding slurry coat (0.5 mm) and primer coat (2 mm) with active corrosion inhibitors. Alternative to zinc rich or epoxy		durabond SP
Additive/bonding primer for cement mortars and screeds	Improves adhesion, tensile and flexural strengths of sand/cement mixtures permitting thin layers	Synthetic resin polymer	duralatex
PROTECTIVE COATINGS			
Carbonation (inland), chloride (coastal) and other water borne contaminants barrier	Coloured, UV stable, flexible system, primer and top coat	Acrylic	duracote WB
Concrete, masonry structures, protection against carbonation, chloride and other water borne contaminants	Elastomeric, crack bridging, UV stable	Cementitious	abe® silocoat
Fine textured protection coat to concrete, masonry structures against external factors	Elastomeric, crack bridging, UV stable, smooth finish		duracote FT
Waterproofing, protection and repair of new and old concrete structures internally and externally	Flexible, non-toxic, excellent bond to concrete		duraflex®
Sealing, laminating, screeding and tile grouting	Solvent free, novolac modified, high chemical resistance	Epoxy	abecote® SF 217
Coating/mortar for protection of asphalt against oil and chemical resistance to concrete and steel	Good wear and chemical resistance	Coal tar epoxy	abecote® SF 356

PROTECTIVE COATINGS			
Solvent based silane/siloxane water repellent for concrete surfaces.	Water repellent	Silane-Siloxane	durasil SH
Concrete protection for sub-soil.	Cementitious, 1 part slurry to protect submerged concrete.	Cementitious	duraslurry
Migrating corrosion inhibitor protecting impregnation of pre-existing reinforced concrete structures.	Anodic and cathodic protection, normal and pre-compressed structures in heavy stressed conditions.	Acrylic	Mucis Mia 100
Solvent-free underwater grade epoxy compound.	For underwater paint, repair, grout and patch.	Epoxy	epidermix® 311
REPAIR MORTARS			
Structural reinstatement vertically and overhead and honeycomb repairs	High strength, dual expansion and migrating corrosion inhibitor	Cementitious	durarep GT – MCI
	High strength, fibre reinforced, high build, migrating corrosion inhibitor (MCI)		durarep FR
Concrete pavements and shuttered structural repairs	High strength, fluid micro concrete, migrating corrosion inhibitor (MCI)		durarep FMC
Plugging holes and running water	1 minute set, impervious	Epoxy	durarep 60 durarep 180
	3 minute set, impervious		epidermix® 318
Adhesive/repair to patching defects in concrete and fibre cement, fabricating components	High early strength and chemical resistant		epidermix® 319
Bedding mortar/adhesive to patching precast units, concrete surfaces, stair treads, joint arises, honeycombed concrete	High early strength, cures in damp conditions	Epoxy	epidermix® 314
Structural reinstatement to vertical, overhead defects, honeycomb and spall repairs	High early strength, putty consistency, cures in damp conditions
